The Easiest Collaboration:

Elevate Your Meetings to the Next Level with High Quality Video Communications

Companion Web is a web-based video collaboration solution built with dynamic WebRTC technologies.

The reliable, customizable, and intuitive Companion Web lets users take the leap into the next generation of high-quality remote video communications.

Its easy-to-use video interfaces streamline communication and simplify the experience for all users.

Companion Web seamlessly supports one-on-one and multi-point collaboration either for Web-only or mixed (WebRTC + H.323/SIP endpoints) conferences.

With no downloads required, it couldn't be easier to experience the unmatched quality and feature-rich capabilities of Companion Web.

Customized and Secure Multipoint Video Collaboration
